Thursday, 24 February 2005 12:00

Dear Parents and Guardians,

You are probably aware that Mr. Nikolaos Zervis has transferred the operation of the Greek Language School "Aristotelis" to a number of qualified Primary and High School teachers. We thank him for this important choice and decision.

We also express our gratitude to all of you for entrusting the Greek language education of your children to us.

Our staff comprises of fully qualified and experienced teachers from both Australia and Greece.

The school units in all areas will continue to operate in the current "modus operandi" however; our staff will proceed in the assessment of students and their needs and make the relevant changes. However, we shall consult with parent and guardians before implementing any changes.

Therefore, your feedback in all aspects of your child's education is expected and welcomed.

In the next few weeks we shall endeavour to get to know you on an individual basis and discuss any concerns or suggestions you may have.

In the interim, we urge you to complete the attached student data sheet and please return it next week. It is imperative that our staff is fully aware of any medical conditions, use of medications and especially of any allergies that some students may experience.

Your cooperation will be greatly appreciated.
